THE HATCH HOUSE,
Main Street, Bangor, Maine.
This House has been thoroughly repaired, refitted, and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber.
It is a large, commodious, and well furnished House, situated on Main Street, near the centre of the city, and within a short distance of the Steamboat Wharves and the Depot of the P. & K. Railroad, to and from which Coaches are always in readiness to convey passengers.
Its numerous advantages to strangers, and particularly to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city.
Connected with the House is a large and commodious Stable, in charge of competent and faithful ostlers.
By strict personal attention to the comfort of his guests, the proprietor hopes to receive a liberal share of patronage.

American & Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
No. 76 State Street, opposite Kilby St., BOSTON.
AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also, in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.
All necessity of a journey to Washington, to procure a Patent, and the usual great delay there, are here saved inventors.

Testimonials.
"During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents.—There were few, if any, persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
[From the present Commissioner.]
"August 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

PROFESSOR WOOD'S
HAIR RESTORATIVE.
It has Worked Miracles!
THAT ALL THE BALD AND GRAY can be restored perfectly to original growth and color, so far as their locks are concerned, does not admit of doubt; besides, it will cure every possible disease of the scalp, whether developed as dandruff, itching, or in the shape of cutaneous eruptions—even scald-head—and in no possible case will it fail of curing, as if by magic, nervous or periodical Headache, and if used twice a week by the young regularly, it will preserve the color, and keep the hair from falling to any imaginable age. Read and judge.

Milford, Worcester Co., Mass., Nov. 1855.
PROF. O. J. WOOD—Dear Sir:—I take pleasure in bearing voluntary testimony to the magic effects of your wonderful Hair Restorative. As far back as 1836, my hair commenced falling off, until the top of my scalp became bald and smooth as glass; and it has continued to fall for a great many years, notwithstanding I have used many celebrated preparations for restoration. Seeing your advertisement, I was induced to give your article a trial, and to my utter astonishment, found, after a few applications, that my hair became firmly set, and assumed a glossy and beautiful appearance; and by the time I had used a quart bottle, my bald head was covered over with a young and vigorous growth of hair, which is now from one to two inches and a half in length, and growing fast.
Yours truly,
HENRY GOODRICH.

Charlestown, Mass., Aug. 9, 1855.
GENTS:—Nothing but a duty and sympathy that I feel to communicate to others that are afflicted as I have been would induce me to give this public acknowledgment of the benefit I have received from Prof. Wood's Hair Restorative. When I first commenced using it, my hair was quite gray, and in spots entirely bald. I have now used the Restorative about five months, and my hair is entirely changed to its original color, brown, and the new hair is over three inches in length on the spots where it was bald. I have also been much gratified at the healthy moisture and vigor of the hair, which before was dry, and it has ceased to come out as formerly.
Respectfully yours, &c.
MRS. R. A. STODDARD.

From Mrs. Ingalls, a well known nurse in Boston.
Boston, Oct. 19, 1855.
GENTS:—At your request, and being so highly pleased with the effects of the Restorative, I am free to state that my hair had become quite thin, and entirely white. I have for the last five years been in the habit of using dye, but hearing of the extraordinary effects of this article, I was induced to try it. My hair has been restored to its original thickness, and also to its former color, which is light brown. Yours respectfully,
MRS. INGALLS.

The following is from the Pastor of the Orthodox Church, Brookfield:—
Brookfield, Mass., Jan. 12, 1855.
PROF. WOOD—Dear Sir:—Having made trial of your Hair Restorative, it gives me pleasure to say, that its effects have been excellent in removing inflammation, dandruff, and a constant tendency to itching, with which I have been troubled from my childhood, and has also restored the hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure and profit.
Yours truly,
J. K. BRAGG.

(From the Jersey City Telegraph.)
WHAT IS IT FOR—This Wood's Hair Restorative?—is a question asked daily by hundreds. We answer without hesitation, or fear of contradiction, that it is the only article known which will do all it promises for the human hair. It will renew its growth—it will stop its falling—it will restore its natural color. It is not a hair dye, but a speedy and efficacious Restorative.

A SURE PRIZE
For Every Tenth Person!!
CHANCE FOR A GRAND PIANO;
FOR EVERYBODY.
ONLY TWO DOLLARS!!
100 Beautiful Gold Watches; 100 Rosewood Grand Piano Fortes, Ladies' Bracelets, Watch Chains, Breast Pins, Diamond Rings and Silver Spoons
TO BE GIVEN AWAY.
Encouraged by the success which has attended the publication of LESLIE'S ILLUSTRATED NEWSPAPER, which is now closing its second volume, the Proprietor has determined to return to his numerous subscribers a portion of his profits in the following manner:
Every tenth subscriber will have his money returned by the next mail, and the paper will be sent gratuitously for his term of subscription.
Thus in every 1000 subscribers, 100 will have their money returned and the paper sent for Six Months when they remit Two Dollars, and Twelve Months when they remit $4.
Every subscription, as it is received, by letter or otherwise, at his Office, 12 Spruce-st., New York, will be registered in a book kept by the Proprietor himself.
The Prize numbers will be 10, 20, 30, 40, 50, 60, 70, 80, 90 and 100 in each hundred. Persons obtaining any of these numbers will have their money returned and the paper sent free, as above.
Persons obtaining the following numbers in every thousand, in addition to the return of their subscription money as above, will receive the following prizes:

No. 100,	Lady's Gold Bracelet.
" 200,	Gentleman's Gold Watch Chain.
" 300,	Gold Watch, (Lady's or Gent's.)
" 400,	Lady's Gold Chatelaine.
" 500,	Set of Silver Tea Spoons.
" 600,	Gold Breast Pin.
" 700,	Gold Watch, (Lady's or Gent's.)
" 800,	Diamond Ring, (Lady's or Gent's.)
" 900,	Set of Silver Dessert Spoons.
" 1,000,	Grand Rosewood Pianoforte.

These prizes will be given to the same numbers in each and every thousand, in addition to the subscription money being returned and paper sent free to each and every tenth subscriber, as above stated.
This subscription book was opened October 20, 1856, in which all future subscriptions will be registered.
Every person whose money is returned, or who is the recipient of either of the above prizes, will be required to furnish an acknowledgment of the same, and their names will be published from time to time in the advertising columns of Leslie's Illustrated Newspaper.
It should be borne in mind that every subscriber under all circumstances, whether the recipient of a prize or not, will get more than a full equivalent for his money in the paper itself. This is the only Illustrated Newspaper in the United States.
CLUBBING.—Persons sending us Eleven Subscribers are certain to receive back one subscription and have a chance for two; for example, on the receipt of the eleven subscriptions, the last number on the books might be 89—the eleven additional subscribers will then include two prizes.

FRANK LESLIE'S ILLUSTRATED NEWSPAPER.—The last numbers of Frank Leslie's Illustrated Paper have come to hand. In style and general appearance it resembles—and is quite equal to—the London Illustrated News, which is world-renowned for the excellence and variety of its illustrations. The New York paper, however, is sold at half the price of its London prototype. The engravings in Frank Leslie are infinitely superior to those in Ballou's Pictorial.—Whig, Easton, Pa.

GOLD DIGGINGS IN NARRAGANSETT.—The fools are not all dead, that is certain. The Rhode Island Pendulum of a recent date gives the following narration of swindling and folly, showing that the "Plantations" furnish an excellent field for the progress of common sense:

A few weeks ago there appeared in the southerly part of North Kingston two persons, a male and female, offering their services to the people in that rural district as fortune-tellers or conjurors. They traveled, lived and lodged in a vehicle drawn by one horse, and hitched their team wherever circumstances favored a location. They called themselves gipsies, and each was armed with a brace of pistols. These strolling vagabonds, after passing through a portion of Exeter, where they told fortunes on the retail system, called at the house of a wealthy maiden lady, residing about five miles from Wickford, and informed her that there were buried treasures on her farm which she might obtain by digging, and proposed to make known to her the spot where these riches were already waiting to be taken from the earth in any desirable amount. The bait took. In order to consult the planets, a sufficient sum of hard money must be placed in a certain position in order to have the stars more propitious. The lady placed in the hands of the gipsies all the money she possessed, and the test was made without success. It lacked more gold. The stars would not discount. The lady took her silver spoons from the closet, and her gold necklace from her neck, and added to the gipsies' stock. Still it lacked more gold—no conjuration or hocus pocus could induce the stars to tell the spot of buried gold. The lady as a last resort, sent to a neighbor's to borrow, enough money to make the planets willing to tell the golden tale. The sum of one hundred and forty dollars was placed in the hands of the gipsies—the planets worked to a charm—the vicinity was pointed out—the golden tide seemed ready to enter upon its flood—but—the planets said, there must not a spade enter the earth until a certain number of days had elapsed, when a star would fall from heaven and mark the spot where she must dig. To wait was a cruel fate of the stars, and nothing shorter. But it must be endured—and then California and Australia would be but infinitesimal atoms compared with the harvest of the Pindar mines.

The next pigeon they attempted to pick was a widow lady. She was informed by the gipsies that on the brink of the Narrow River was a mine of extravagant dimensions and worth, and that for a certain sum of money she would know the place of the diggings. Seventy-five dollars was demanded of the widow—seventy-five dollars the gipsies received. The widow was not so prosperous until certain days, according to the days of the necromancy.

The next was a young lady, the owner of real estate. The gipsies demanded for her fortune fifty dollars, and fifty dollars were swindled from her, on conditions as above, that she should not dig for the treasure until a certain time, and a certain sign. The gipsies next succeeded in obtaining of two men in the same neighborhood about a hundred dollars, for the knowledge of treasures buried on their farms, on condition that search should not be made till a star pointed out the spot. Everything was ordered to be done with the greatest secrecy on the part of the money diggers; but so splendid a prospect of treasure was too much to keep in a small compass. The duped could plainly see in imagination, that within a few days they were to possess untold heaps of mammon, insomuch as the very implements of husbandry and household furniture were to be made of pure gold. But a little shaking of the faith of one or two of the subjects, gave them great uneasiness, and in order to satisfy their misgivings they went to Aunt Sal, or as the fashion runs Aunt Sallie, a domestic conjuror, to learn the utmost of the matter. Here the bubble burst and the story took wings.

We had supposed that the days of conjuration, witchcraft and ignorance had taken their flight from Narragansett forever—that the schoolmaster had been abroad long enough for a better day or a new age; but it is with shame that we have to record deeds that would dishonor the darker portion of the earth. We have seen nothing in modern history half so humiliating as these cases of double-breasted humbuggery, practised with such unparalleled success within our own corporation. And we are told that one half of the facts have not been brought out. Verily, the district school has yet a work to do even in the "gold regions" of Narragansett.

SMOKING IN ST. PETERSBURG.—A Frenchman just arrived in St. Petersburg, taking a walk, with a burning cigar in his mouth, noticed that he was stared at considerable, and avoided by all who passed, but knew not the cause of the strange behavior. At last he met a tall and distinguished gentleman, who joined him in his walk.
"You are a stranger here?" said the gentleman.
"I arrived yesterday from Paris."
"I see you are not acquainted with our customs. It is forbidden to smoke in the street."
"I thank you, sir, for the information. My principles are reverence and obedience to the laws," said the Frenchman, taking the cigar from his mouth.
"That cannot be said of all your countrymen," observed the gentleman.
"To prove my sincerity, I will throw away my cigar."
"No, sir, you need not. You may smoke it out. No one will molest you while you are walking with me. When I leave you, you must be cautious."
The Frenchman accordingly smoked out his cigar, walking beside the stranger. They then separated, and he went home delighted with the civility of the Russian.
The next day he related the adventure to a friend, and described the stranger. His friend asked, "Do you know who it was?"
"No."
"Shall I tell you?"
"Certainly, if you know him."
"The polite Russian, as you call him, was no other than the Emperor NICHOLAS."
The Parisian would not believe it; but his doubts were scattered the same day, when an officer wearing the Imperial uniform handed him a package, saying—
"By command of His Majesty, the Emperor."
The package contained a parcel of the best cigars. The paper in which they were wrapped had these words written on it:
"To smoke in the streets of Paris."

A YARN ABOUT GUANO.—Although some people may be inclined to doubt the following yarn, we can bring forward any quantity of vouchers. An old salt of our acquaintance, says that when he was in the guano trade he sailed as mate of an old brig, which might have been a tender to Noah's ark. On a return trip

with a load of guano, the hatches were left open one night, and a tremendous shower wet the guano in the hold, and produced the most surprising effect. The timbers of the vessel sprouted and grew in all directions. Between decks was a complete bower. The forecastle became an almost impenetrable thicket, and the cabin a beautiful arbor. The rudder post being made of white oak, grew up into a "live-oak" tree, which afforded a grateful shade to the man at the helm, though he was somewhat annoyed by the acorns rattling on his tarpaulin hat. The masts became very imposing with their green foliage, and, strange to relate, the foretopmast, which had been carried away in a gale, grew out again, and the altitude of all the masts was so much increased as to render the brig exceedingly crank. The vessel had boughs on her stern, and the figure head (speaking figuratively) was as full of boughs as a dancing master. They were obliged to prune the bowsprit and some of the spars twice a week. The quarter-deck was covered with shrubbery, and the cook's caboose resembled a rustic summer house. Crab-apples grew on the pump handle, and a cherry table in the cabin bore fruit. Perhaps the most remarkable circumstance occasioned by the stimulating and fertilizing influence of the guano, was that the cockroaches on board became so large that they could get up the anchor and make sail on the brig. One of the owners of the brig facetiously remarked that she went out a full rigged brig and came home half *bark*. There is nothing like guano to make things grow, and for strict truth and veracity give us an old sailor when he lays himself out on a big yarn.—*Boston Herald.*

Mr. Buchanan's Cabinet.

Public opinion at least seems to have settled very definitely upon the following cast of the new Cabinet. It is quite certain, we think, that Gen. Cass has been offered, and has eagerly accepted, the post of Secretary of State, or premier of the new administration. The appointment is regarded as an unfit one in many respects—especially unfit that a man should be placed in charge of our foreign relations who has on so many occasions in Congress, expressed a deadly and unreasonable hostility to the nation with which we have the most extensive commercial dealings. It is said now, to be sure, that Cass's 54,40 fulminations against England, whether upon the Oregon question or any other, were simply speeches for Buncombe. We are to understand now that they were made for the purpose of stirring up the democratic masses in this country, and to make the Irish voters think the democratic party was going to sink the island of Great Britain on the first available opportunity. Undoubtedly a great deal of the talk of Cass & Co. has been of this character—but there has been a feeling of real hostility at the bottom of it—and if there were no feeling of the kind, it is manifestly improper to place a man in the position of Secretary of State who has shown so bitter a feeling upon all occasions against a great nation with whom we are constantly having diplomatic difficulties.

Mr. Buchanan has selected Cass, we presume, entirely with a view to domestic political matters. It is an attempt at compromise between the South and the North; but it will be likely to satisfy neither. Cass certainly has no element of popularity at the North. He has never recommended himself in the least to the support of the friends of freedom; but is justly regarded as a man of temporizing expedients, a mere trimmer for national popularity, whenever and wherever the slavery question has been introduced. He has never had the confidence of the North, and even at the South he is regarded with distrust, on account of his unfortunate "squatter sovereignty" mistake, put on record in the Nicholson letter, and which cannot now be expunged.

The N. Y. Evening Post has a telegraphic despatch from Washington to the effect that Mr. J. Glancy Jones having declined the office of Postmaster General, it has been offered to Mr. William C. Alexander, of New Jersey, who has accepted the compliment. The new Cabinet will then be composed as follows:

Secretary of State—Lewis Cass of Michigan.
Secretary of the Treasury—Howell Cobb of Georgia.
Secretary of War—John B. Floyd of Virginia.
Secretary of the Navy—Aaron V. Brown of Tenn.
Secretary of the Interior—Jacob Thompson of Miss.
Postmaster General—Wm. C. Alexander of N. J.
Attorney General—Isaac Toucey of Conn.

The Post has the following comments:

"One would suppose, from reading this list, that the Cabinet was designed as "an asylum for aged and indigent politicians. All the members in the list from the Free States—less than half, of course—were passed upon by their constituents at the last election, and all were condemned by exemplary majorities.

If the Slave States are satisfied with their representatives in the new Government, we can only say that they are not fastidious. Our impression is that this is the weakest and least efficient Cabinet that has ever been constituted at Washington. It is painful, in this golden age of mediocrity in politics, to see the only man who lends any sort of dignity and importance to the present administration, compelled to give place to a septuagenarian like Mr. Cass, who seems to heed no warnings, whether from his constituents or from Providence, that his days of usefulness as a statesman have passed away."

The Tribune says:

For the present we simply observe that the Cabinet of *Mr. Pierce* is a splendid and wonderful combination of political genius and administrative ability, in comparison with the new one.

The store of Mr. S. N. Miller, near Penobscot Bridge, was entered on Wednesday night, probably by boys, and some change and small articles taken therefrom.

SUPREME COURT.—The criminal term was closed yesterday, (Thursday) after a laborious session of three weeks. A large number of indictments were found by the grand jury, and an unusual number of hardened offenders have been tried and convicted. Judge Cutting, (as will be seen by Wednesday's report) has passed some exemplary sentences, which it is hoped will prove a terror to evil-doers, and a check upon crime in this county.

The closing proceedings, yesterday were as follows:

Geo. Shaw, Jr., convicted of robbing Isaac Sanborn of Brooklyn, Me., was sentenced to four years in the State Prison.

Isaac Cunningham, for larceny of a horse from Simon Nowell, 60 days in county jail, and $50 fine. There were some mitigating circumstances shown in this case.

The case of John Evans of the "Swanscot House," indicted for larceny, and found guilty upon one count, was carried up on report and exceptions—he finding bail in the meantime in $700 on one indictment and $500 on another.

DEATH OF AN OLD RESIDENT. John Ham, Esq., one of the oldest residents of our city, died on Wednesday evening, after a short illness, at the age of 78. Mr. Ham came to Bangor from New Hampshire, fifty-three years ago, and has been well known to several generations of our people. He was originally a mechanic; but was in mercantile business as early as forty years ago. He was a prompt and exact man in all his transactions, active and energetic in his movements, and a worthy citizen. He lived more than fifty years with his worthy matrimonial partner, who survives him.

The Mercantile Course was pleasantly varied last evening by some creditable declamations by pupils of the Boys' High School, under direction of Mr. John F. Deane, their principal Preceptor.

The following programme of selections was rendered with much ability:

"The Seventh Plague of Egypt," from Croley, by Thos. S. Drummond.
Supposed Speech of Pericles, by Augustus W. Norcross.
The Execution of Montrose; by Frank E. Appleton.
Flogging in the Navy—from a Speech of Mr. Stockton; by Henry Warren.
Liberty of the Press—Victor Hugo; by Geo. Frederick Howard.
Death of Marmion; by Herbert White.
In behalf of the Greeks; by Geo. A. Abbott.
A Western Sermon; by Geo. T. Godfrey.
The Baron's Last Banquet; by Fred. H. Appleton.
The Lost Heir—from Hood; by Edw. L. Appleton.
Liberty and Union—Webster; by Sidney W. Thaxter.

OPEN TO THE PUBLIC.—We are requested to state that the new Hall of the Mechanics' Association, in Granite Block, with the Library, Cabinet, and other rooms connected therewith, will be thrown open for visitors on Monday and Wednesday next,—afternoons and evenings. The Hall is a very convenient and well arranged room for public meetings of the Association. The Library contains now more than 1500 volumes; and arrangements are making for a public Levee and Fair, by means of which it is hoped that funds for its material enlargement may be raised. The Cabinet contains a good selection of meteorological specimens from all parts of the State, and many preparations in several departments of natural history—besides a large collection of ancient coins, medals, warlike implements, relics of old battles, and a great variety of curiosities from all parts of the world. In this department, we think the collection surpasses that of the State Cabinet at Augusta, and will amply repay an examination. A general invitation is given to the public, on Monday and Wednesday, as above.

FROM THE PRAIRIES. Wm. Low has on exhibition at his Meat Market, on Kenduskeag Bridge, two splendid wild turkies which he received direct from the Western prairies. The two weigh 33 lbs. He has also several Prairie Grouse from the same vicinity. Low keeps wild meats in abundance at his place.

A *nol. pros.* was entered in the case of Hon. Geo. Thorndike and Horace Merriam, two of the directors of the Ship Builders' Bank who were arraigned before the Supreme Court in Lincoln at the recent term, on charges, connected with the management of the Bank.

DISCOURSE UPON THE DEATH OF DR. KANE. On Sabbath afternoon next Rev. Mr. Dalton of St. John's (Episcopal) Church, will deliver a discourse to Young Men, suggested by the recent death of Dr. Kane.

NEW YORK TOWN ELECTIONS. The recent town elections in New York, show the following results, as far as heard from:—Republican Supervisors 121; Democrat 51; American 24. This shows from last year, a Republican gain of 60, a Democratic loss of 20, and an American loss of 38.

NEW YORK CITY.—The Providence Journal has the following in regard to the present condition of affairs in New York city:

"We in the Provinces like to talk about the wickedness of New York, and to console ourselves with the reflection that the big city excels us in everything else, it is quite as much ahead of us in crime as in other matters. One curious illustration of this occurs in the inquest of the Burdell murder. Four witnesses testified that they heard the cry of 'murder' in the house, once loud and full, a second time stifled as though the victim had already been half despatched. But not one of them took any note of what would seem a very common occurrence. One of them said in giving his testimony, 'says I to myself, there is a muss going on in that house;' and then he passed on. 'A muss!' only killing somebody, murdering a man, that was all!

Not altogether dissimilar was the conduct of the chamber-maid at the New York Hotel, who found a robber in a lady's chamber with a burglar's chisel in his hand, [illegible] the lady; the girl looked on for a few minutes, and thinking that he was only the lady's husband, quietly walked down stairs, the burglar following at his leisure. New York is growing very fast; we are not altogether sure that we are glad of the re-opening of the navigation through the Sound."

THE STAR AND THE CLOUD: or a Daughter's Love, by A. S. Roe, author of "A Long Look Ahead," "I've been Thinking," "To Love and be Loved," &c. New York: Derby & Jackson. 1857.

The flow of light literature has for a few months past been materially checked—the supply having increased last year with so great rapidity as altogether to outrun the demand. This great flood brought with it so large a quantity of almost worthless drift-wood, that the literary market became nearly deserted.

Good books, however, will soon find sale again—and there are few authors who can or do produce better books than Mr. Roe. We can confidently recommend them before reading a syllable. He has written nothing of a low or even medium cast of literary merit—while his later works are among the very best in the language for moral tone, for high interest, for improving tendency to the younger or the older reader, and for chasteness of composition and directness of aim in their moral application. His "Long Look Ahead" was deservedly one of the most popular works in the list of American publications—and the readers of that book will welcome another from the same pen.

The present work is for sale by E. F. Duren.

MIND AND MATTER: or Physiological Inquiries. By Sir Benjamin Brodie, Bart., D. C. L. Vice President of the Royal Society. New York: G. P. Putnam & Co. 1857.

These interesting and instructive essays by Sir Benjamin Brodie, are republished in a neat volume of 280 pages by the above named American house. They include the preface to the third London edition, with additional and valuable notes by an American editor. The dialogues (in which form the Essays are written) illustrate the mutual relation of the physical organization and the mental faculties—an inquiry of absorbing interest to every man of thoughtful temperament—and one exceedingly important to his improvement both mentally and physically.

The work is for sale by E. F. Duren.

THE AMERICAN GENTLEMAN'S GUIDE TO POLITENESS AND FASHION. By Henry Lunettes. New York: Derby and Jackson, 1857.

A guide to true politeness is sufficiently needed by a large portion of American young men—and where fashion is subordinated to true politeness, fashion should also receive its due attention. The work above named is a worthy one we think, in both respects, although we have not had time to examine it thoroughly.—We perceive that its details of instruction (given in a series of familiar letters from an uncle to his nephew) are made attractive by many interesting sketches, anecdotes and aphorisms in illustration of the points. It is a handsome volume of 480 pages.

[From the Boston Herald Feb 24.]

A HEINOUS OUTRAGE.—Coroner Smith has been pursuing an investigation for several days past into the circumstances of an affair which occurred in the Herald building, Williams Court, on the night of the 18th and morning of the 19th of January, by which an unhappy young woman, named Ellen Desmond, came to her death at the Massachusetts General Hospital, on the 11th inst. The evidence thus far has unfolded one of the blackest crimes ever perpetrated in Boston, and that when the circumstances shall have been known by a judicial examination, will be found sufficient to bristle the hair and freeze the blood of the reader with horror.

On that dark night, when the tempest was raging which is almost unparalleled in the annals of the country, an outrage was committed which has few equals on the calendar of crime. While the editors, reporters and printers, of the establishment, were pursuing their avocations in the upper rooms of the building, a young woman was decoyed into the press room in the basement, by persons employed there, and others and ruthlessly violated. Her cries were stifled, and she was brutally outraged, while there were those in the building who would have torn the hearts out of the fiendish perpetrators of the act had they been aware of what was going on under the same roof. After the persons in the upper rooms had finished their labors and gone home, the poor unfortunate was taken to the upper part of the building, to an unoccupied room, and left for a time in the darkness. In the agony of her despair she leaped from the window, and was picked up by a policeman and conveyed to the station house, close at hand. From thence she was taken to the hospital, where she lingered twenty one days, and then died.

The Ledger makes the following statement concerning this infernal villainy:

"On that terrible night, the 18th of January last, when the great snow storm buried so many shelterless people beneath its wild fury, a respectable young Irish girl, named Ellen Desmond, who is at service in the family of one of our most respectable citizens, having returned late from a visit to her sisters', became benumbed and bewildered by the driving snow when she reached State street, and knew not which way to go in order to reach home. Meeting a couple of men in the street, she respectfully asked them the way. One of them answered that he would show her. She thanked him, in her innocence, and followed on after him. He conducted her up Williams Court as far as the Herald building, into which he forced her."

Two of the villains have been arrested on a charge of murder.

THE BURDELL CASE.—It appears that Dr. Parmley has furnished additional evidence with reference to the Bond street tragedy; in substance that he resides at No. 30 Bond street, and on returning home about 11 o'clock on the fatal Friday night, he smelt, as he thought, something as if burning wool. While standing at the door, his dog, which was not much accustomed to leave him, seemed inclined to remain on the other side of the street, near Dr. Burdell's stoop, and he could not be coaxed away, and was taken home in his arms. He (Dr. P.) could not avoid noticing an extraordinary light at the window of Dr. Burdell's house—the window of the room which (as he afterwards learned at the inquest) was the empty unoccupied room, with a fire-place described by Mary Donahoe. In other respects the house was in total darkness—which was unusual, the side lights at the front door were obscured, nor was there any light over the door.

The light in the attic was extraordinary and likely to excite attention from the fact of the unusual darkness of the rest of the house, from no light ever having been seen previously in that attic, and more particularly from the character of the light and its intensity. It was not such a light as might be produced by a lamp carried hastily about, but as though newspapers or some easily combustible substances had one by one been successively thrown upon a fire, having their illumination and the light subsiding [illegible]

Lights and Shades of the Southwest.

We take the following graphic sketch of one phase of life in the border provinces of Mexico, from "*Olmsted's Texas Journey*"—a most interesting work, recently published by Messrs. Dix, Edwards & Co., of New York.

Returning through the town we found the awakened people lounging outside their doors, chatting cheerfully, laughing, and singing a great deal, nearly all smoking, and [illegible] portion affectionately searching—under each other's long, luxuriant, and glossy, but coarse, black hair, for—something, which they were constantly finding, and despatching with their thumb-nails.

Very few persons were moving in the streets, or engaged in any kind of labor—for this searching exercise comes under the head of sport, I suppose. As we turned a corner near the bank, we came suddenly upon two negroes, as they crossed the street. One of them was startled, and looked ashamed and confounded; turned hesitatingly back and walked away from us; whereat some Mexican children laughed, and the other negro, looked at us, grinning impudently, expressing plainly enough "I am not afraid of you." He touched his hat, however, when I nodded to him, and then, putting his hands in his pockets, as if he didn't mean to, stepped up on one of the sand-bank caverns, whistling. Thither, wishing to have some conversation with him, I followed. He very civilly informed me, in answer to inquiries, that he was born in Virginia, and had been brought South by a trader, and sold to a gentleman who had brought him to Texas, from whom he had run away four or five years ago. He would like right well to see old Virginia again, that he would—*if he could be free.* He was a mechanic, and could earn a dollar very easily, by his trade, every day. He could speak Spanish fluently, and had traveled extensively in Mexico, sometimes on his own business, and sometimes as a servant or muleteer. Once he had been beyond Durango, or nearly to the Pacific; and, northward, to Chihuahua, and he professed to be competent, as a guide, to any part of Northern Mexico. He had joined the Catholic True Church, he said, and he was very well pleased with the country.

Runaways were *constantly* arriving here; two had got over, as I had previously been informed, the night before. He could not guess how many came in a year, but he counted forty that he had known of, in the last three months. At other points further down the river, a great many more came than here. He supposed a good many got lost and starved to death, or were killed on the way, between the settlements and the river. Most of them brought with them money, which they had earned and hoarded for the purpose, or some small article which they stole from their masters. They had never been used to taking care of themselves, and when they first got here they were so excited with being free, and with being made so much of by these Mexican women, that they spent all they brought very soon; generally they gave it all away to the women; and in a short time they had nothing to live upon, and, not knowing the language of the country, they wouldn't find any work to do, and then they were very poor and miserable. But, after they had learned the language, which did not generally take them long, if they chose to be industrious they could live very comfortably. Wages were low, but they had all they earned for their own, and a man's living did not cost much here. Colored men, who were industrious and saving, always did well; they could make money faster than Mexicans themselves could, *because they had more sense.* The Mexican Government was very just to them, they could always have their rights as fully protected as if they were Mexicans born. He mentioned to me several negroes whom he had seen, in different parts of the country, who had acquired wealth, and positions of honor. Some of them had connected themselves, by marriage, with rich old Spanish families, who thought as much of themselves as the best white people in Virginia. In fact, a colored man, if he could behave himself decently, had rather an advantage over a white American, he thought. The people generally liked them better. These Texas folks were too rough to suit them.

I believe these statements to have been pretty nearly true; he had no object, that I could discover, to exaggerate the facts either way, and showed no feeling except a little resentment toward the women, who probably wheedled him out of his earnings. They were confirmed, also, in all essential particulars, by every foreigner I saw, who had lived or traveled in this part of Mexico, as well as by Mexicans themselves, with whom I was able to converse on the subject. It is repeated as a standing joke—I suppose I have heard it fifty times in the Texas taverns, and always to the great amusement of the company—that a nigger in Mexico is just as good as a white man, and if you don't treat him civilly he will have you hauled up and fined by an alcalde. The poor yellow-faced, priest-ridden heathen, actually hold, in earnest, the ideas on this subject put forth in that good old joke of our fathers—the Declaration of American Independence.

The runaways are generally reported to be very poor and miserable, which, it is natural to suppose they must be. Yet there is something a little strange about this. It is these that remain near the frontier that suffer most; they who have got far into the interior are said to be almost invariably doing passably well. A gang of runaways, who are not generally able to speak Spanish, have settled together within a few days' walk of Eagle Pass, and I have heard them spoken of as being in a more destitute and wretched condition than any others. Let any one of these present himself at Eagle Pass, and he would be greedily snatched up by the first American that he would meet, and restored, at once, to his old comfortable, careless life. The escape from the wretchedness of freedom is certainly much easier to the negro in Mexico than has been his previous flight from slavery, yet I did not hear of a single case of his availing himself of this opportunity. If it ever occurs, it must be one to a thousand of those going the other way.

Legislative.

TUESDAY, Feb. 24.

The Bill "to authorize the business of Free Banking" came from the House referred to a Joint Select Committee. The Senate concurred, and the Chair appointed Messrs. Hallowell, Smith and McGilvery, on said Committee.

Mr. Chapman from the Joint Special Committee on the Revision of the Statutes, reported in part that they have carefully examined titles *seven* and *ten*, and are satisfied that they contain all the existing laws belonging to those titles. The Committee recommend that in order to facilitate the engrossment, and that the session of the Legislature not to be protracted thereby, that titles *seven* and *ten* be passed to be engrossed, and that other titles be passed in the same manner as the committee are able to report to them, and that after engrossment all the titles be consolidated into one *act*.

The rules were suspended, the reading in detail dispensed with, and Titles 7, and 10, were read once and to-morrow assigned for second reading.

Mr. McGilvery asked and obtained leave to have his name recorded among the "yeas" on the passage of the bill in relation to the Supreme Judicial Court.

HOUSE.—On motion of Mr. Cross of New Gloucester,

Ordered, That the Committee on Judiciary be directed to report an amendment to Section 8 of Chapter 13 of the Revised Statutes, by substituting the words 'every three years' in the place of 'annually,' in the first line of said section, [illegible] the County Treasurer elected for three years, instead of one, as now provided.

On motion of Mr Bicknell of Augusta, the vote of the House passing to be engrossed "A bill in relation to Banks, requiring the receivers to settle the accounts of Banks in the hands of receivers, in the places where such Banks are located," was reconsidered, and the bill was then laid on the table.

The House at eleven o'clock, proceeded to the special assignment of the day, the consideration of the act additional to the act providing for the consolidation of certain railroads, and the question being on the engrossment of the bill,

Mr Fletcher of China, addressed the House in opposition to the bill, at length. At the conclusion of his remarks, Mr. Drummond of Waterville spoke in favor of the bill.

Mr. Danforth of Gardiner, obtained the floor and after some remarks in opposition to the bill, he gave way to a motion to adjourn, and the House adjourned.

Parlor Sewing Machine.
FAMILY SEWING MACHINES, making every thorough stitch the same as made by hand—*back stitch—half back quarter back—side* (for quilting and padding)—*over and over-running* (for gathering,) and *hemming*. The decided superiority of the Parlor Sewing Machine is now deservedly acknowledged, combining the qualifications of BEAUTY, RELIABILITY, and perfect SIMPLICITY. There being no peculiar mode of threading the needles and rewinding spools, it is free from the many perplexities attending other Sewing Machines, and consequently is easier learned and kept in order, making the real "old fashioned" Hand Stitches, enabling a person to adapt any stitch they desire to any kind of work or fabric, from stitching muslin or linen to hemming towels.
Samples of sewing sent to any part of the world.
Manufactured by Howard & Davis; Exhibition and Sales Room, 203 Washington Street, opposite Marlboro' Hotel, Boston. B. A. JOHNSON, Manufacturers' Agent.
Feb. 25

THE REASON
Why nine-tenths of ladies prefer *Wheeler & Wilson's Sewing Machine* to any other, is because it does better work than any other, yet invented. If any one doubts this, let them call at Hatch & Thompson's, of this city, and see and obtain specimens of the work.

THE GOOD SAMARITAN OUTDONE.—Mrs. M. N. Gardner, whose biography lies open before us, has certainly been a Good Samaritan on earth, and her Indian maiden Name [illegible] can never be forgot on earth as the compounder of the celebrated Indian Balsam of Liverwort and Hoarhound, which is saving thousands in our midst, doomed victims of Consumption, or sufferers from severe Colds and Coughs, Asthma, Croup and Bronchitis. This pleasant medicine has great and sovereign virtues, and should be early employed in all cases of lung complaints. It is for sale everywhere. Weeks & Potter, 154 Washington street, Boston, General Agents.

Boston Special Notices.

The original article established in 1846 by W. P. Fetridge.
THE BALM OF THOUSAND FLOWERS,
—FOR—
BEAUTIFYING THE COMPLEXION & REMOVING All Tan, Pimples, and Freckles;
For Shaving and Cleansing the Teeth.
For shaving this Balm gives a rich, penetrating lather, and has no equal in rendering the beard soft, emollient and tender, so that, in removing it, it gives way at the slightest resistance to the razor, without producing the least sensation, leaving a fresh, white, and delicate countenance.
Directions—Dip a clean brush in water (hot is preferable,) pour on three or four drops of this transparent Balm, and make the lather on the face.
One Bottle will last a year. Price 50 cents.
The only genuine article is sold by A. WILLIAMS & CO., 100 Washington-st., Boston.
The trade supplied at Manufacturer's prices, by special appointment.

Beautiful Teeth.
Burnett's Oriental Tooth Wash, prepared by Messrs. Joseph Burnett & Co., 41 Tremont Street, Boston, arrests decay of the Teeth, neutralizes the secretions of the mouth, renders the gums hard and healthy, and imparts to the breath a fragrance peculiarly aromatic and pleasant. It contains nothing which can possibly injure the most sensitive and delicate organization.
For sale by all the Druggists at 50c per bottle.

Wilbor's Compound of Pure Cod Liver Oil and Lime.—The great advantage of this compound over the plain Oil is that the nauseating taste of the oil is entirely removed, and the whole rendered entirely palatable. The offensive taste of the oil, has long acted as a prominent objection to its use; but in this form the trouble is entirely obviated. A host of certificates might be given here to testify to the excellence and success of WILBOR'S COD LIVER OIL and LIME; but the fact that it is regularly prescribed by the medical faculty is sufficient.
For sale by ALEXANDER B. WILBOR, Chemist, No 166 Court Street, Boston.

Rosemary.
Take the sweetest of names and the fairest of flowers,
Combine them, and lo, what a treasure is ours!
For blooming in winter, when earth is all dreary,
We hail with delight the green fragrant Rosemary.
The Rosemary, as prepared by Mr. J. Russell Spaulding, is one of the nicest and best articles in the world for the Hair. 27 Tremont Street, (opposite Museum) Boston, is the great depot for it.
Fling greasy, filthy compounds into the gutter, and try the neat and clean ROSEMARY for your hair. Sold by dealers generally.

Vegetable Pulmonary Balsam,
For Affections of the Lungs, Throat and Chest.
Rev. Dr. Lyman Beecher, Boston, late President of Lane Theological Seminary, Cincinnati, Ohio, says,—"I have used the *Vegetable Pulmonary Balsam* myself, with benefit, in Catarrhal coughs and colds, and have known it to be used with good effect in the early stages of pulmonary affections, in families around me." Reed, Cutler & Co., Druggists, Proprietors. *Be careful and get the genuine, as there are many imitations.*
Sold by the Apothecaries and Druggists, generally.—Price 50c and $1.

Coughs, Hoarseness and Bronchitis.
BROWN'S BRONCHIAL TROCHES, when allowed to dissolve slowly in the mouth, have a direct influence to the affected parts; the sedative and soothing effect in the mucous lining of the windpipe into the Bronchi allays Pulmonary Irritation and gives relief, in Coughs, Colds, and the various throat affections to which public speakers and singers are liable. These Lozenges are made from a highly esteemed recipe for alleviating Bronchial affections, and all disorders of the Breath and Lungs—Coughs, Asthma, Hoarseness, Catarrh, Irritation or Soreness of the Throat, occasioned by cold, or unusual exertion of the vocal organs.
"BROWN'S BRONCHIAL TROCHES.—We take pleasure in calling the attention of our readers to these Lozenges. Here, in Boston, where the *Bronchial Troches* are known, they are household words, and need no testimony to recommend them; but to our readers in Canada, the West, and indeed everywhere, we cheerfully bear testimony, from personal knowledge, to their efficacy.—*Ballou's Pictorial.* Sold by all Druggists.

More Evidence in favor of the Oxygenated Bitters.
From Hon. Geo. W. Jones, Surveyor General of Iowa.
SURVEYOR-GENERAL'S OFFICE, Dubuque, Iowa, September 18.
Doctor George B. Green—Dear Doctor—I intended before leaving Washington City last spring, to say to you in black and white, as I have frequently done face to face, how highly I esteemed your Oxygenated Bitters, and that I have no doubt but that they will act as a certain specific, and effect a cure of Dyspepsia, in any case, if the bitters not in obstinate. Your Bitters acted as a charm with my friends, Hon. A. C. Dodge, M. L. Martin, H. H. Foster, and others, as they did with myself.

TO THE DAILY WHIG AND COURIER

Congressional.

WASHINGTON, Feb. 26.

SENATE—Mr. Trumbull said he had been requested to present a memorial from 27 Senators and 36 members of the House of Representatives of the General Assembly of Indiana, stating that it was important to their rights as well as to the rights of that State, that there should be a speedy decision in the case of Mr. Fitch, who claims to have been elected to a seat in the Senate. He said the request of the petitioners seemed so reasonable that he trusted it would receive the favorable consideration of the Committee on the Judiciary, and that they would make an early report on the subject.

Mr. Toombs remarked that he was prepared with a report now, and proceeded to read it. It sets forth that the Committee have found that some of the important matters of fact alleged by the contestants relative to the manner in which the election of Mr. Fitch was held are denied by him, and hence it becomes necessary to take the testimony of persons residing in Indiana for the better ascertaining of the disputed facts.

Mr. Toombs offered a resolution that, touching the case of the contested election of Mr. Fitch, who has been returned and admitted to a seat from Indiana, the sitting member and the persons protesting against his election be permitted to take testimony on the allegations of the contestants and of said member touching all matters therein contained, before any Judge of the District Court of the U. S., or any Judge of the Supreme or Circuit Court of Judiciary, by first giving such proceedings in some public gazette printed in the city of Indianapolis. He remarked that one of the most important questions involved in the consideration of the legality of this election was, whether the persons who acted as Senators in the General Assembly were legally entitled to their seats or not. These were the controverted points, and the Committee were unable to report the facts to the Senate, without first taking testimony.

Mr. Stuart objected to the present consideration of the subject, as likely to give rise to debate, and interfere with the morning business. The resolution lies over, under the rule, and the report was ordered to be printed.

Mr. Wilson introduced a bill appropriating $100,000 for a Court House at Boston.

Mr. Rusk, from the Committee on the Post Office, reported a bill to expedite the construction of a line or lines of magnetic telegraph from the Atlantic to San Francisco.

Mr. Stuart thought it a little singular that Southern Senators should have made so much opposition yesterday to the Sub-Marine Telegraph bill, and now, when a line is proposed on a Southern route, none of them open their mouths against it.

Messrs. Toombs, Rusk, Clay, Butler, and Iverson severally repelled with severe indignation the idea that they were governed by sectional considerations.

Mr. Stuart said, that a reference to the records of this Congress would show that he had stated no more than the truth. He referred to the violent opposition of the Southern Senators to the Northern Internal Improvement bills, but when those in the Southern States came forward the opposition subsided.

The bill was passed 36 to 15.

The Committee on Commerce reported a bill authorizing the President to procure a steam revenue cutter, to be stationed on the Pacific coast.

The Committee on the Post Office reported a bill to provide for the carrying of the mails from New York to Para, South America, touching at the intermediate ports, and a bill for carrying the mails from Panama to Valparaiso.

The Senate then took up the House Tariff bill.

Mr. Hunter argued the importance of acting on the subject this session, for a postponement till next year might find it involved in party politics, when the decision could not be made as satisfactorily to the whole country as now.

An amendment to the bill proposed by the Committee on Finance, placing linseed in and taking zinc off the free list, was agreed to.

The next amendment of the Committee was an additional section, providing that all the articles in the schedules A and B, in the Act of 1846, shall pay 30 per cent., and all the articles in C, D, E, F, G and H, shall pay one-fifth less than the rates now imposed, with the exceptions otherwise provided for in this Act.

Mr. Collamer expressed his views at great length, and said that he could see no necessity for making such a radical change as that now proposed in this party manner.

The Senate then took a recess to half-past 4 o'clock.

EVENING SESSION.

The Senate re-assembled.

Mr. Pugh said that he thought the bill from the House was bad enough, but Mr. Hunter's substitute was worse. The whole scheme shows that the Woolen Manufacturers desire protection—no revision of the tariff.

Mr. Wilson said that Mr. Pugh has indulged in denunciations, sarcasms and sneers towards men who deserve no reproaches in this or the other branch of Congress. The Woolen Manufacturers wish not to impair the prosperity of the Agricultural interest, nor do they ask unjust advantages. If the House bill pass, it will be of immense indirect benefit to the manufacturers, and the commerce of the country.

Mr. Seward was in favor of that plan which would least shock the business of the country as at present adjusted. He was against all horizontal reductions.

Mr. Bigler regretted exceedingly that it became necessary for Congress, at this late period, to consider questions at all.

Mr. Stuart said the actual reduction of the revenue, under the bill as it came from the House was only $6,000,000, but the Committee thought this too little, and hence proposed amendments reducing it $2,000,000 more, thus bringing the revenue down to $50,000,000 annually.

Mr. Gwin favored Mr. Hunter's substitute. Mr. Nourse advocated the House bill.

The prospects are that the Senate will be in session all night.

HOUSE—The House, under the operation of the previous question, passed the Miscellaneous, the Army, the Navy, the Fortification, and the Ocean Mail Steamers Appropriation Bills.

The House then acted on the Senate's fifty amendments to the Indian Appropriation Bill, and tabled by 5 majority the bill to invest the $3,000,000 held in trust for the Indians, in safe State stock.

The Speaker announced that the next business would be the consideration of the report on Mr. Gilbert's case, whereupon, on motion of Mr. Orr, the House adjourned.

Washington News.

WASHINGTON, Feb. 26.

The House took summary action to-day on all the remaining general appropriation bills upon its calendar, in order to proceed uninterruptedly on the reports of the Corruption Committee, which come up to-morrow. Nothing whatever was done with them to-day.

Mr. Sumner was in his seat about half an hour to-day, and was warmly welcomed by his friends.

Capital Punishment Restored.

PROVIDENCE, 26th.

The House of Representatives voted to-day, by the casting vote of the Speaker, to restore capital punishment for murder.

Vermont State House Location.

MONTPELIER, 26th.

An informal ballot in the House to-day, to indicate preference for the location of the State House resulted as follows: Montpelier 118; Burlington 67; Rutland 34; scattering 10. This is regarded as settling the question in favor of a building in Montpelier.

Rumored Duel.

WASHINGTON, 25th.

Rumors of a duel are current between Messrs. Sherman and Wright.

NEW ORLEANS, 26.

The remains of Dr. Kane were escorted to the steamer for Louisville by the Military, Free Masons, Consuls, city authorities, and an immense concourse of citizens. On the Consular, shipping and public buildings flags were display'd at half-mast, and minute guns were fired from sunrise until the embarkation of the body.

Steamer Niagara.

HALIFAX, 11 30 P. M., Feb. 26.

No signs of the steamer Niagara, now fully due from Liverpool. The Europa from Boston, arrived at 11, and will sail about midnight for Liverpool. Weather clear, with a strong N. W. wind.

NARROW ESCAPE. A day or two since as Mr. Samuel Haskell, of Cape Elizabeth, was crossing the railroad track in his sleigh, at the end of Vaughan's Bridge, he heard the whistle of the locomotive. It was just upon him. He had but time to make a backward leap when the engine struck the sleigh, smashing it to fragments, and throwing the horse into the canal. Mr. Haskell was not hurt, fortunately, but the delay of a second would have cost him his life. The horse was taken out of the canal uninjured. It was the Portland and Kennebec train and we are informed that the usual alarm was not given.—*Argus.*

TIRED OF LIFE. We understand an elderly lady of West Corinth, named Campbell, cut her throat the other day, but whether successfully or not, our informant could not state.—*Journal.*

LOOK.
THE LUXURY AND PROFIT OF
HONEY MAKING.

Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey-making business to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers.

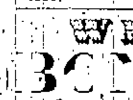

The boxes used in this Hive for storing honey, are the best adapted in their size, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights.

For sale, fifty swarms of Bees, with the new hives.

For hives, individual rights, &c., address R. S. TORREY,

GROVER & BAKER'S
New Family Sewing Machines!
PRICE $75.00.

Reasons Why Grover & Baker's SEWING MACHINE —is— Universally preferred for Family Sewing.

1st. It is more simple and easily kept in order than any other Machine.

2d. It makes a seam which will not rip or ravel though every third stitch is cut.

3d. It sews from two ordinary spools, and thus all trouble of winding thread is avoided, while the same Machine can be adapted at pleasure, by a mere change of spools, to all varieties of work.

4th. The same Machine runs silk, linen thread, and common spool cotton, with equal facility.

5th. The seam is as elastic as the most elastic fabric, so that it is free from all liability to break in washing, ironing, or otherwise.

6th. The stitch made by this Machine is more beautiful than any other made either by hand or machine.

We have been appointed agents for the above Machines, and have them for exhibition and sale at our store, where the public are invited to examine them. FENNO & HALE.

5th and 20th of each Month

Greatly Reduced Prices. 50 lbs Baggage Free.

Through Tickets, including transit of the Isthmus, via Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot Aspinwall and conveyed across to the Pacific Steamers *without any extra expense*. This is the only line giving entire Through tickets including meals, on the Isthmus.

Transit made in *four hours entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U S Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure and short* passage, without any detention on the Isthmus.

Tickets must be secured by one of the Company's Agents before they sail or except by the Agent at Panama and Tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies in this city. C L BARTLETT, Agent,

LINCOLN'S
WATER PROOF BLACKING,
AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

IT is not a truth that when it is often wet it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried it soon becomes hard and cracks but when it is water proof the leather is rendered soft and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches and being often around with wet feet myself, I was led to experimenting on different compositions and found it easy to make it water proof but at the same time extremely dangerous to the leather. At last by a chemical process, I have discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water proof but it likewise softens the leather and it will

Positively wear twice as long.

I have now used it for three years and a large part of that time have worked in a wet Tannery, with my boots constantly in water and have not had my feet wet during that time. I can therefore in all confidence recommend to the public as the best article in the market.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric either of cloth or leather they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES ALWAYS OPERATE PERFECTLY, being strong durable and complete in contrivance and workmanship. A perfect Sewing Machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire *reliability* of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye not to perform substantial work. The truth is, *family sewing machines* ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use and they are Singer's. The speed of our machines has lately been doubled. No other can compete with them in quantity of work.

New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of I M Singer & Co's Gazette, a paper devoted entirely to the subject. It will be sent gratis.

Thrice-Weekly
Kennebec Journal for 1857

DURING the approaching session of the Legislature the undersigned will continue the publication of the *Three weekly Journal*, being the XIIIth Volume of the same.

As is well known the chief purpose of this paper is to afford the public of Maine a faithful account of the deliberations and actions of its Legislature. With the reports of the Legislative doings we intend also to publish the proceedings of Congress as they are given in the best reports from Washington.

As the renewal of all the Bank Charters in the State will come before the Legislature this Winter the debates and proceedings will be of peculiar interest to all who are interested in Bank property.

The numerous lines of railroad which now traverse the State in all directions will enable a very large portion of our subscribers to receive their papers a few hours after their publication. This fact renders a subscription to the Three Weekly more desirable and satisfactory than in former years.

The Three Weekly Journal will be published on *Monday, Wednesday* and *Friday* mornings—The price will be

Single Copy—One Dollar for the Session,

As usual, payable in advance. Any person forwarding us $8 shall be entitled to the ninth copy for his trouble. To any one who will send us $16 we will send two copies extra for his trouble—Whoever shall send us $24 shall be entitled to three copies extra and in like ratio for a larger amount.

It is desirable that the names of subscribers accompanied with the money, may be forwarded at or before the commencement of the session—*Money remitted by mail at our risk.*

ALL HAIL!!!
Something for the Million!!!
PROF. WOOD'S
HAIR RESTORATIVE!

WE CALL THE ATTENTION OF ALL, OLD and YOUNG to this wonderful preparation which turns back to its original color gray hair—covers the head of the bald with a luxuriant growth—removes the dandruff itching and all cutaneous eruptions—causes a continual flow of the natural fluids; and hence if used as a regular dressing for the hair will preserve its color and keep it from falling to extreme old age in all its natural beauty. We call then upon the bald the gray, or diseased in scalp to use it; and surely the young will not, as they value the flowing locks or the witching curl ever be without it. Its praise is upon the tongue of thousands.

Watertown, Mass, May 1 185?

PROF O J WOOD—A few months ago I tested the virtues and magic powers of your Hair Restorative. Three months since being exceedingly gray I purchased and soon commenced to use two bottles and it soon began to tell in restoring those silver locks to their native color, and the hair which was before dry and harsh and falling off now became soft and glossy; and it ceased falling off; the dandruff disappeared and the scalp lost all its disagreeable itching so annoying before and now I am not only look but feel young again. Respectfully yours etc.
CHAS WHITNEY

New York, Oct 2, 185?

PROF O J WOOD—Dear Sir: After reading the advertisement in one of the New York journals of your celebrated Hair Restorative I procured a half pint bottle and was so much pleased with it that I continued for two months and am satisfied it is decidedly the best preparation before the public. It at once removed all the dandruff and unpleasant itching from the scalp, and I have restored my hair naturally, and I have no doubt, permanently so.

You have permission to refer to me, all who entertain any doubt of its perfect meeting all that is claimed for it.
MISS FEEKS 264 Greenwich av.

I have used Professor O J Wood's Hair Restorative and have admired its wonderful effects. It restored my hair where it had fallen off; it cleans the head, and renders the hair soft and smooth—much more than oil.
MARY A ATKINSON
Louisville Nov 1 185?

State of Illinois, Carlisle, June 27 ?5

I have used Prof O J Wood's Hair Restorative and have admired its wonderful effect. My hair was becoming as I thought, prematurely gray, but by the use of this Restorative it has returned to its original color and I have no doubt permanently so.
SIDNEY BREESE.
Ex-Senator United States

[*From the Washington Star*]

Among the many preparations now in use for the restoring and preserving the hair, Prof Wood's Hair Restorative we can recommend with more confidence than [illegible]. Wood's Hair Restorative in general use throughout the States. This preparation possesses the most invigorating qualities and never fails in producing the most pleasing results when applied according to directions. We refer our readers to the advertisement for a few of the innumerable certificates which have been sent by parties who have been benefited by it and who feel happy in giving testimony to its wonderful effects produced.

OLD DR. CULVERWELL'S
Member of the Royal College of Surgeons (1827) Licentiate of the Hall (1824) and 29 years Medical Referee &c

Radical Regenerator,
FOR SEMINAL WEAKNESS,

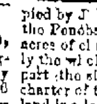

Involuntary Emissions, as Nocturnal and Diurnal Emissions, Nervous Irritability, Premature Decay, Loss of Virility, Impotency and all the cases arising from early indiscretion.

This excellent Remedy, discovered by the world renowned Dr CULVERWELL, in London, the most successful practitioner in this line for the last 30 years, is now for the first time offered to the afflicted in the fullest confidence of its extraordinary virtue. Its salutary effect is almost instantly felt and it will doubtless at once supersede all other means resorted to medical surgical or otherwise to arrest and to cure this awful disease. A single trial will convince the most sceptical that a safe and perfect cure may now be had at the expense of a few dollars which up to this date could not be procured for all the gold of the world. The heavy expenses incurred in bringing this article before the public could not be risked were its superiority over every means hitherto employed for the same purpose not a sure guarantee that its employment by one person would through recommendation, result in an eventual sale to many.

Dr CULVERWELL'S admirable and entirely novel plan of treating these diseases in the afflicted of humanity, recommended to physicians throughout the land, to whom every facility will be afforded for testing its wonderful efficacy in their private practice.

Full and plain directions for all the different varieties of the complaint accompany Dr Culverwell's REGENERATOR-REMEDY so as to enable every one to treat himself or herself successfully. Price $2 on the receipt of which it will be forwarded *by mail*, free of postage, to any part of the country. Headache, Sick Headache, Foul Stomach.

Pittsburg, Pa, May 1, 185?

DR. J C AYER. Sir I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do me the fact is worth knowing.
Yours with great respect ED W PREBLE

Bilious Disorders and Liver Complaints.

DEPARTMENT OF THE INTERIOR, Washington D C 7 Feb 185?

Sir: I have used your Pills in my general and hospital practice ever since you made them and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. I have found a case of bilious disease so obstinate that it did not readily yield to them.
Fraternally yours ALONZO BALL, M D, *Physician of the Marine Hospital*

Dysentery, Relax, and Worms.

POST OFFICE HARTLAND, LIV CO, Mich, Nov 15, 185?

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad and my wife cured him with two doses of your Pills while others around us paid from five to twenty dollars doctors bills and lost much time without being cured entirely even then. Such a medicine as yours which is actually good and honest, will be prized here.

Indigestion and Impurity of the Blood.

From Rev J V Himes Pastor of Advent Church Boston.

DR AYER I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known and I can confidently recommend them to my friends. Yours J V HIMES

DEAR SIR I am using your Cathartic Pills in my practice and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St Louis Feb 4 185?

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured she also tried your Pills and they have cured her. ASA MORGRIDGE.

Rheumatism, Neuralgia, and Gout.

From the Rev Dr Hawkes of the Methodist Epis Church

PULASKI HOUSE SAVANNAH, GA, Jan 6, 185?

HONORED SIR I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians the disease grew worse and worse, until by the advice of your excellent agent in Baltimore Dr Mackenzie I tried your Pills. Their effects were slow but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE LA, 5 Dec, 185?

DR AYER. I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SLIDELL

For Dropsy, Plethora, or kindred Complaints, requiring an active purge they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even Deafness, and Partial Blindness, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury which, although a valuable remedy in skilful hands, is dangerous in a public pill from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL
FOR THE RAPID CURE OF
COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, INCIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town and almost every hamlet of the American States its wonderful cures of pulmonary complaints have made it already known. Nay few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than those it cures. Keep it by you and cure your colds while they are curable, nor neglect them until no human skill can master the inexorable canker that fastened on the vitals eats your life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy we need not do more than to assure them it is still made the best it can be. We spare no cost no care no toil to produce it the most perfect possible and thus afford those who rely on it the best agent which our skill can furnish for their cure.

Boston, Aug 20 1856 3law m

THE GREATEST
MEDICAL DISCOVERY
Of the Age.

Dr KENNEDY of Roxbury, has discovered in one of our *common pasture weeds* a remedy that cures

EVERY KIND OF HUMOR,
From the worst Scrofula down to a common Pimple.

He has tried it in over 1100 cases and never failed except in two cases (both thunder humor). He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst cases of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear to me surprising, first that it grows in our pastures in some places quite plentiful and yet its value has never been known until I discovered it in 1846—second that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery I will state that in April, 1853 I peddled it and sold about six bottles per day—In April, 1854 I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable have been cured by a few bottles. O what a mercy if it will prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have.

I know of several cases of Dropsy all of them aged people cured by it. For the various diseases of the Liver Sick Headache Dyspepsia Asthma Fever and Ague, Pain in the Side, Diseases of the Spine and particularly in Diseases of the Kidneys &c the discovery has done more good than any medicine ever known.

No change of diet ever necessary—eat the best you can get, and enough of it.

DIRECTIONS FOR USE.—Adults one table spoonful per day—Children over ten years dessert spoonful—Children from five to eight years tea spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day.

The Principal Office for the State of Maine and the British Provinces, is at the Drug and Medicine Establishment of H H HAY, 16 & 17 Market Square, Portland Maine to whom all orders should be addressed. Sold by respectable Druggists throughout the United States and British Provinces.
